ANIMAL CHAT

ACTIVITY

Initial questions: How do we greet in English? How do we respond?

Teacher's task: Divide the class into groups of animals, such as tigers, lions, rabbits, foxes, frogs, etc. Children have to imitate each animal's movement for 15 seconds all around the classroom. After the instruction "STOP!", each student has to approach their closest classmate and introduce themselves; followed immediately by a motor task.

Example:

Teacher: "Everybody! Move freely imitating your favorite animal!" (Children will imitate each animal's movement for 15 seconds all around the classroom).

Teacher: "STOP! Introduce yourself to your closest classmate"

Student 1: "Hi, what's your name?"

Student 2: "Hi, my name is Tiger (imitates the animal's movement during 5 seconds, vigorously); what's yours?"

Student 1: "My name is Lion (imitates the animal's movement for 5 seconds, vigorously), how are you?"

Student 2: "I'm fine, thank you. And you?"

Student 1: "I'm ok, thank you".

Teacher: "Before you continue moving throughout the classroom, sit on the floor and stand up jumping 5 times!"

Suggested Random Instructions:

1. Sit on the floor and, stand up jumping 5 times
2. Jump on one foot 20 times, per foot.
3. Jump turning around 20 times.
4. Riding bicycle 20 times on the floor.
5. Standing up, bend your left knee and take your left heel with both hands to your left buttock. Stretch your leg for 10 seconds, breathing deeply. Next, do your right leg.
